

## Appendix II

### Federal Programs Serving the Great Lakes

Great Lakes environmental protection and natural resource management programs are divided among many agencies, including EPA, NOAA, FWS and the USGS Biological Resources Division (USGS/BRD) in the Department of Interior, the NRCS of the Department of Agriculture, the Coast Guard of DOT, the international commissions of the Department of State, and the Corps. This appendix briefly describes the recent fiscal year budgets of selected Federal programs. These tables do not reflect Great Lakes funding included in national programs. They only reflect specific Great Lakes-related programs and associated funding.
